

Temporary PPE Cart – Restocking, Cleaning & Disinfection

PPE cart to be cleaned and disinfected twice per shift on evenings and days

- Ensure someone is assigned this task for each shift
- Days to restock PPE cart
- Evening and nights to clean & disinfect and restock PPE cart

Restocking:

Replace gloves on top of cart and supplies in cart

- Additional masks are stored in the top drawer
- Gowns are available in the second & third drawers
- Bottom drawer will contain additional garbage bags (Crothall will supply garbage bags) and linen bags

Cleaning and disinfection:

- Clean hands
- Remove supplies from top of cart
- Clean (using rub & scrub motion) the PPE cart (top, outside and handles) with wipe
- Disinfect using a new wipe

Ensure PPE cart is placed on outside of utility table (see picture)

Wipe top of trolley used to carry in supplies, repeated using a new wipe

Clean hands, move to next cart
