

HAND HYGIENE

Focused: Resident Dining

1 **BEFORE:** Contact with a Resident or surfaces in their surroundings.
To protect the resident from harmful germs carried on your hands.

2 **BEFORE:** Contact with each Resident, during the meal.
To protect residents and food from harmful germs carried on your hands.

3 **AFTER:** Contact with each Resident, during the meal.
To prevent spreading harmful germs to residents, food, or surfaces.

4 **AFTER:** Contact with a Resident or surfaces in their surroundings.
To prevent spreading harmful germs picked up on your hands.

“Clean Hands - Safer Care”
