

We are Experiencing a Gastrointestinal Outbreak

Symptoms of Gastrointestinal illness are vomiting and diarrhea

- **DO NOT VISIT** if you are vomiting or have diarrhea
 - **STAY HOME for 2 days (48 hours)** after resolution of your last symptom.
- **CLEAN YOUR HANDS** upon entering and exiting the facility, the unit, and the client room.
- If the person you are visiting has symptoms follow the instructions on the **Contact Plus and Droplet Precautions** sign
 - Ask staff if you require assistance putting on Personal Protective Equipment.
 - **Clean your hands** after taking off gloves, gowns or facial protection.
 - Wear a mask if the person you are visiting is vomiting.
